Product Description

Product Description:

The Aerosol Can Dome is a snap-on closure type that is easy to install and remove, making it convenient for you to use. This feature ensures that your aerosol can contents are well protected from external elements such as dust, dirt, and moisture, which can compromise their quality and effectiveness. The product's weight is 0.8 ounces, which makes it lightweight and easy to carry around with you wherever you go.

If you are looking for a product that can help you keep your aerosol can contents safe, then the Aerosol Can Dome is the perfect solution for you. This spray can cap is designed to fit most aerosol cans, making it a versatile tool for anyone who uses aerosol containers. Its unique design makes it easy to use, and it is perfect for those who want to keep their aerosol can contents safe and secure.

The Aerosol Can Dome is an indispensable tool for anyone who needs to use aerosol cans regularly. It is perfect for professionals who work in industries such as automotive, construction, and painting, where aerosol cans are frequently used. This product is also great for DIY enthusiasts who use aerosol cans for various projects, such as painting or cleaning.

If you want to try out the Aerosol Can Dome before buying it, we offer a sample that you can try out for yourself. This allows you to see how the product works and how it can help you keep your aerosol can contents safe. With the sample, you can test the product's durability and functionality, ensuring that it meets all your needs and expectations.

In conclusion, the Aerosol Can Dome is a must-have product for anyone who needs to use aerosol cans regularly. Its unique design provides protection to your volatile solutions, ensuring that they are kept safe and secure. This spray can cap is made of high-quality plastic material, making it durable and long-lasting. With its snap-on closure type, it is easy to install and remove, making it convenient to use. Try out our sample today and experience the benefits of the Aerosol Can Dome for yourself!

Features:

Product Name: Aerosol Can Dome

Size: Fits Standard 16 Oz Aerosol Cans

Origin: China

Quantity: 1 Pack

Compatibility	Fits Most Standard Aerosol Cans with Metal spray cap, Metal spray cap, Volatile solution cap
Closure Type	Snap-on
Weight	0.8 Ounces
Shape	Dome
Color	Clear
Usage	Spray Can Protection
Material	Tinplate

Applications:

The Jiayi aerosol can dome is a versatile product that can be used in various scenarios. Its primary application is to prevent the accidental discharge of volatile solutions while being transported or stored. The dome-shaped cap fits snugly over the metal spray cap of the aerosol can, preventing any accidental discharge of the volatile solution. This makes it ideal for use in laboratories, chemical plants, and other industries that deal with volatile solutions.

The Jiayi aerosol can dome is also useful in households where the aerosol cans are stored in drawers or cabinets. The dome-shaped cap provides an extra layer of protection, ensuring that the volatile solution does not accidentally discharge, causing any harm to the user or the surroundings. The clear color of the dome-shaped cap allows the user to see the metal spray cap, ensuring that the cap is securely in place.

The Jiayi aerosol can dome is also useful in scenarios where the aerosol can is used for a prolonged period. The continuous use of the metal spray cap can lead to the accumulation of dust and other particles, leading to clogging of the spray nozzle. The Jiayi aerosol can dome prevents the accumulation of dust and other particles, ensuring that the metal spray cap remains free of any clogs. This makes it ideal for use in industries that require the continuous use of aerosol cans.

In conclusion, the Jiayi aerosol can dome is a versatile product that can be used in various scenarios. Its ability to prevent the accidental discharge of volatile solutions, protect the metal spray cap, and prevent the accumulation of dust and other particles, makes it an essential product in industries that deal with volatile solutions. Its customizable feature, compatibility with most standard aerosol cans, and certification with ISO9001, make it a reliable product for use.

Customization:

Packing and Shipping:

Product Packaging:

The Aerosol Can Dome product will be packaged in a cardboard box that is sturdy and durable. The box will be sealed with tape to ensure that the product does not fall out during transit. Inside the box, the product will be wrapped in bubble wrap to prevent any damage during shipping. The packaging will also include a product manual that will provide instructions on how to use the product.

Shipping:

The Aerosol Can Dome product will be shipped through a reliable courier service that provides tracking information. The shipping cost will be calculated based on the destination and weight of the package. The product will be shipped within 2-3 business days of receiving the order. Customers will be provided with a tracking number as soon as the product has been shipped.
