Product Description

Product Description:

The Food Can Cap comes in various sizes, including 200#, 202#, 209#, 211#, 214#, 300#, 305#, 307#, and 401#. These sizes are compatible with different types of canned food, making it versatile and suitable for various canned food production lines. The external design of the can cap is also highly customizable. It comes in different colors such as white, yellow, gold, clear, and even printing. This feature gives manufacturers the opportunity to create unique and attractive packaging for their canned food products. The sealing of the Food Can Cap is also noteworthy. It has a round edge injection that ensures a tight seal between the cap and the can. This feature keeps the canned food fresh and free from contamination, prolonging the shelf life of the product. The Food Can Cap is ideal for canned fish production, as well as other types of canned food. It is a reliable and safe option for manufacturers looking for high-quality components for their canned food production line.

Keyword	Can Lids

Applications:

The Jiayi 003 food can cap is a high-quality product made from durable tinplate material and certified with ISO9001 standards, ensuring its reliability and safety for use in various food production lines.

Designed with a round edge injection sealing feature, the can lid provides a secure and airtight seal that keeps canned food products fresh and safe for consumption. Its internal options of white, yellow, gold, and clear colors also add versatility to the product, allowing it to match the different needs and preferences of food manufacturers and consumers alike.

The Jiayi 003 food can cap is suitable for various occasions, including:

Food Tin Can Production: The can lid is an essential component in the production of food tin cans, ensuring the quality and freshness of canned food products.

Canned Food Production Line: The can lid is compatible with different types of canned food production lines, making it a versatile and practical choice for food manufacturers.

Food Processing: The can lid can be used in various food processing applications, such as canning fruits, vegetables, and other food products.

Food Storage: The can lid's secure sealing feature makes it an ideal choice for storing canned food products, ensuring their freshness and longevity.

The Jiayi 003 food can cap also comes with different external options, including white, yellow, gold, clear, and printing designs, making it a customizable choice for food manufacturers who want to add their branding or label to their canned food products.

The product is also packaged in paper sleeves, stretch films, pallets, and cartons, ensuring its safe and convenient delivery to customers. With a delivery time of 3-5 days, customers can expect timely and efficient service from Jiayi.

Customization:

Our Jiayi Food Can Cap model 003 is made of high-quality tinplate material, ensuring durability and safety for your canned food production line. It is certified with ISO9001, which guarantees the reliability and consistency of our product. We offer customized services, allowing you to choose from a variety of external colors including white, yellow, gold, clear, and printing. You can also choose from internal colors such as white, yellow, gold, and clear. We offer multiple packaging options including paper sleeve, stretch film, pallet, and carton. With a delivery time of 3-5 days, we provide quick and efficient service to our customers. Our product can be customized to fit your specific needs, ensuring the satisfaction of our clients.
