Product Description

Product Description:

The compound used in the production of our Food Can Cap is a water-based formula that is specifically designed for use in the food industry. This compound is safe for consumption and ensures that your food items remain uncontaminated and fresh. Our Food Can Cap comes in various sizes, including 200#, 202#, 209#, 211#, 214#, 300#, 305#, 307#, and 401#. This means that it is compatible with most food tin cans available in the market, making it a versatile and essential addition to your food storage accessories. To ensure that our Food Can Cap arrives at your doorstep in perfect condition, we package it in a variety of ways. You can choose to receive your order in a paper sleeve, stretch film, pallet, or carton, depending on your preference. The internal lining of our Food Can Cap is available in four different colors: white, yellow, gold, and clear. This gives you the flexibility to choose the color that best suits your product and brand identity. In summary, our Food Can Cap product is an essential tool for anyone who wants to keep their canned fish, and other food items, fresh and uncontaminated. Made from high-quality Tinplate material, with a water-based compound and available in various sizes and packaging options, this product is a must-have for anyone in the food industry. Order yours today and experience the difference it makes!

Features:

Product Name: Food Can Cap

Applications:

If you are looking for a reliable and durable food can cap, Jiayi 003 is the perfect product for you. Made of high-quality tinplate, this product is manufactured in China with a certification of ISO9001 ensuring its quality and reliability.

The Jiayi 003 food can cap is suitable for various food industries, especially those that require easy open caps. If you are in the canned food production line, you know how important it is to have a cap that can be easily opened by consumers. With Jiayi 003, you can guarantee a hassle-free experience for your customers.

In addition, this product is also ideal for canned fish products, such as tuna, sardines, and salmon. The food industry water base compound used in making the product ensures that it is safe to use and will not contaminate the food inside the can. The round edge injection sealing also guarantees that the food inside the can will remain fresh and secure.

The Jiayi 003 food can cap is available for purchase with a delivery time of 3-5 days. It comes in different internal colors such as white, yellow, gold, and clear, giving you the flexibility to choose the best color that suits your product. The cap is also packed in a paper sleeve, stretch film, pallet, and carton, making it convenient for you to transport and store.

With its durability, reliability, and convenience, Jiayi 003 food can cap is the perfect choice for your food industry needs. Order now and experience the difference it can bring to your business.
