Product Description

Product Description:

Our AEROSOL COMPONENTS are available in a variety of sizes and shapes, making them suitable for use with a wide range of aerosol products. Whether you're looking for a large can for industrial purposes or a small can for personal use, we have the perfect product for you. Additionally, we offer samples of our aerosol can components, enabling you to test our products before you commit to a larger order, ensuring that you only receive the best quality products.

At Jiayi, we pride ourselves on delivering the highest quality products that are designed to meet the needs of our customers. Our AEROSOL COMPONENTS are no exception. Our components are designed to meet the highest industry standards, ensuring that you receive a product that is reliable, durable, and safe to use.

Our AEROSOL COMPONENTS are suitable for a wide range of applications, from personal care products to household cleaning products. With our components, you can be assured that your aerosol products will be of the highest quality, providing excellent performance and a long shelf life.

When it comes to aerosol can components, Jiayi is the name you can trust. With our commitment to quality and customer satisfaction, we have become a leading supplier of TINPLATE Can Components in the industry. So why wait? Contact us today to learn more about our AEROSOL COMPONENTS and how we can help you take your aerosol products to the next level.

Features:

Product Name: Aerosol Can Cone

Country Of Origin: China

Brand Name: Jiayi

Industrial Use: Chemical

Product name: AEROSOL COMPONENT

Deformation Pressure: $\geq 1.8\text{MPa}$

Can Components

Spray Aerosol can

AEROSOL COMPONENT

Technical Parameters:

Product Name:	AEROSOL COMPONENT
Type:	For AEROSOL CANS

Material:	TINPLATE
Thickness:	0.28/0.32/0.35/0.40
Product Type:	Aerosol Can
Usage:	Aerosol
Deformation Pressure:	≥1.8MPa
Place of Origin:	Tianjin, China
Country of Origin:	China
Industrial Use:	Chemical

Applications:

The AEROSOL COMPONENT is suitable for a variety of occasions and scenarios. It is commonly used in industries such as automotive, household, and personal care. In the automotive industry, this product is used to contain and dispense automotive lubricants, paints, and coatings. For household applications, it is ideal for storing and dispensing insecticides, air fresheners, and cleaning products. In the personal care industry, it is commonly used to package and dispense hairsprays, deodorants, and shaving creams.

The AEROSOL COMPONENT is designed to make the dispensing of products easy and convenient. It is equipped with a cone-shaped nozzle that ensures a controlled and even spray. The product is compatible with most standard AEROSOL CANS and can be easily attached. The AEROSOL COMPONENT is packaged in pallets and has a delivery time of 10-15 days. It is proudly made in China and is a testament to the country's commitment to producing high-quality products.

Customization:
