Features:

Product Name: Tinplate Aerosol Can
Transportation: Easy To Transport
Capacity: 100ml-1000ml
Pressure Resistance: Up To 14 Bar
Size: Various Sizes Available
Function: Dispensing Aerosol Products

Applications:

The Jiayi Acans Tinplate Aerosol Can is a versatile product suitable for various application occasions and scenarios, making it an essential packaging solution for a wide range of industries.

Product Application Occasions and Scenarios:

- 1. Engine Oil Tin Can:** The Tinplate Aerosol Can is ideal for packaging and dispensing engine oils due to its durability and pressure resistance of up to 14 bar. Whether for personal or industrial use, this product ensures convenient storage and easy application of engine oils.
- 2. Aerosol Spray Paint:** The Jiayi Acans Aerosol Can is perfect for containing aerosol spray paint products. Its reliable pressure resistance and customizable actuator make it a preferred choice for artists, DIY enthusiasts, and industrial painters looking for precision and ease of use.
- 3. Aerosol Spray Valve:** This Tinplate Aerosol Can is designed to accommodate aerosol spray valves, making it suitable for packaging various aerosol products such as air fresheners, insecticides, and cleaning agents. The ease of transportation and customizable actuator further enhance its usability in different scenarios.

With its high-quality material sourced from China, ISO9001 certification, and customizable features, the Jiayi Acans Tinplate Aerosol Can

offers a reliable packaging solution for businesses and individuals alike. The minimum order quantity can be tailored to specific needs, and the price is determined based on the quantity ordered. Packaged in paper bags, cartons, stretch film, or wooden pallets, the delivery time for the product is quick, ranging from 3-5 days. Payment terms are flexible, accommodating various preferences. Overall, the Jiayi Acans Tinplate Aerosol Can is a versatile and durable product that meets the packaging needs of different industries, providing convenience and efficiency in various application scenarios.

FAQ:
