

0.19mm Necked-In Cassette Gas Tin Can Outdoor Butane Gas Can 65*165mm

Our Product Introduction

for more products please visit us on jiayi-packaging.com

Basic Information

- Place of Origin: Tianjin China
- Brand Name: customized
- Certification: iso9001
- Model Number: 65
- Delivery Time: 7-14 days
- Payment Terms: L/C, T/T
- Supply Ability: 10000/day

Product Specification

- Thickness: Can Body:0.18-0.23mm,Cone&Dome:0.25-0.40mm.
- Type: Necked-In/Straight-Wall
- Defomation Pressure: ≥General 12bar,High Pressure 18bar
- Burst Pressure: ≥General 14bar,High Pressure 21bar
- Highlight: Butane Cassette Gas Cans, Cassette gas can, 0.23mm Necked-In cassette gas can

Product Description

Product name: Standard 65×165mm cassette butane gas tin can

Core description:

This product is a 65×165mm cassette butane gas can that meets the general industry standards and is sealed with a high-quality tin-plated steel can (tin can). It is designed to adapt to the mainstream portable cassette stoves, outdoor camping stoves, mini gas stoves, etc. on the market, providing a stable, efficient and portable liquefied gas energy solution.

Key features and advantages:

Standard specifications, wide compatibility: Precise 65mm (diameter) x 165mm (height) size, strictly following the mainstream cassette stove interface standards, ensuring seamless matching with most brands and models of cassette stoves, and strong versatility. Tin can packaging, quality assurance: The tin-plated steel can (commonly known as tin can) has better corrosion resistance, oxidation resistance and sealing performance than ordinary iron cans, effectively ensuring gas purity and storage safety, and extending the shelf life of the product.

High-purity butane gas source:

canned high-purity butane liquefied gas, full combustion, stable calorific value, strong firepower and easy to control, meeting the needs of efficient cooking

Safe and reliable: the tank structure is sturdy, the production process is strict, and it is equipped with a reliable sealing valve system to ensure airtightness and operational safety during transportation, storage and use.

Portable and efficient:

compact standard size design, light weight, is an ideal mobile energy choice for outdoor camping, picnics, family backup, emergency cooking and commercial simple meals.

Ready to use: easy to operate, quick to install, no complicated preparation required, instant ignition, improve the user experience.
