

Hairspray can, tin can, Propane, butane, hair spray, mousse containers, with value

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: customized
- Certification: iso9001
- Model Number: #52 #57 #65
- Delivery Time: 7-14

Product Specification

- Material: Tinplate
- Size: Fits Most Standard Aerosol Cans
- Burst Pressure: \geq General 14bar, High Pressure 21bar
- Pressure: High Pressure
- Usage: Spray Products
- Compatibility: Compatible With Most Aerosol Products
- Storage: Easy To Store
- Application: Household, Industrial, Automotive
- Transportation: Easy To Transport
- Type: Necked-In/Straight-Wall
- Product Type: Aerosol Can
- Durability: Durable

Product Description

——Customized solution for tinplate cans for high-end hairspray

Why do top hairspray brands abandon aluminum cans?

Tin cans (tinplate) have 3 times the compressive strength + 100% light-proof seal to protect the activeness of the formula,

Let your product upgrade from a "functional bottle" to a "luxury-grade art packaging".

Light degradation Fully shading metal structure to protect photosensitive essential oils/active ingredients

Alcohol corrosion Food-grade epoxy inner coating, resistant to alcohol solvents and no leakage

Transport deformation Compressive value $\geq 200\text{kg}$, breakage rate close to 0

Low-temperature explosion can -25°C extreme cold test without deformation, suitable for global logistics
