Product Description

Product Description:

The Tinplate Aerosol Can is a versatile and essential product designed for dispensing various aerosol products. With its robust construction and reliable functionality, this can is suitable for a wide range of applications, including the packaging of car aerosol spray paint, household cleaners, personal care products, and more.

One of the key features of the Tinplate Aerosol Can is its customization options. The can is available for branding and labeling, allowing businesses to showcase their unique logos, designs, and product information. This customization option is ideal for companies looking to enhance their brand visibility and create a cohesive product line.

Available in various sizes, the Tinplate Aerosol Can offers flexibility to meet different packaging needs. Whether you require a compact can for travel-sized products or a larger can for industrial use, there is a size option available to suit your requirements.

Constructed from durable tinplate material, the aerosol can ensures long-lasting performance and protection for the contents inside. The tinplate material provides a barrier against moisture, light, and other external factors, helping to preserve the quality and integrity of the aerosol products stored within the can.

For applications requiring different pressure levels, the Tinplate Aerosol Can is suitable for use with both general and high-pressure products. Whether you are packaging coconut oil in a tin can or using high-pressure aerosols for industrial cleaning purposes, this can is designed to withstand the pressure requirements of various products.

In addition to its primary function of dispensing aerosol products, the Tinplate Aerosol Can is compatible with aerosol can making machines for efficient production processes. The can's design and dimensions are optimized for use with automated canning equipment, ensuring seamless integration into manufacturing operations.

Overall, the Tinplate Aerosol Can is a reliable and customizable packaging solution for a wide range of aerosol products. Its versatility, durability, and compatibility with aerosol can making machines make it an ideal choice for businesses looking to package and distribute their products effectively.

Features:

Product Name: Tinplate Aerosol Can

Function: Dispensing Aerosol Products

Product Type: Aerosol Can

Size: Various Sizes Available

Transportation: Easy To Transport

Application: Personal Care, Household, Automotive, Etc.

Applications:

The Tinplate Aerosol Can, with model numbers 45, 52, 57, 60, 65, and 70, is a versatile packaging solution suitable for a wide range of application occasions and scenarios.

Whether you are in need of packaging for Aerosol Spray Nozzle products, Beer Tin Cans, or Aerosol Spray Paint, this product can meet your requirements. Its durability and quality make it ideal for various industries and purposes.

Originating from China and certified with ISO9001, this Tinplate Aerosol Can offers reliability and assurance of quality. The minimum order quantity can be customized according to your needs, and the price varies depending on the quantity ordered.

With packaging details including paper bag, carton, stretch film, and wooden pallet, the Tinplate Aerosol Can ensures safe and secure transportation. Its delivery time of 7-14 days and flexible payment terms further add to its convenience.

Capable of withstanding both general and high pressure, this product is compatible with most aerosol products. It also offers customization options for branding and labeling, allowing you to personalize it with your own brand name.

Whether you require standard or customized actuators, the Tinplate Aerosol Can caters to your specific needs. Its ease of transport and compatibility with various aerosol products make it a practical choice for a wide array of application scenarios.
