Tinplate Aerosol Can with Metal Actuator 14-21bar Burst Pressure

Our Product Introduction

for more products please visit us on jiayi-packaging.com

Basic Information

- Place of Origin: China
- Brand Name: Customizable
- Certification: ISO9001
- Model Number: 45 52 57 60 65 70
- Minimum Order Quantity: Can be customized
- Price: Depending on the number
- Packaging Details: Paper bag/carton/stretch film/wooden pallet
- Delivery Time: 7-14days
- Payment Terms: All

Product Specification

- Actuator: Metal
- Usage: Spray Packaging
- Product Type: Spray Can Dome
- Burst Pressure: \geq General 14bar, High Pressure 21bar
- Recyclable: Yes
- Sealing Type: Crimp Or Screw
- Lid Type: Cone/ Dome
- Shape: Cylindrical
- Highlight: tinplate aerosol spray cans,
high pressure aerosol packaging cans,
durable tinplate sealing cans

Product Description

Product Description:

The Tinplate Aerosol Can is a versatile packaging solution designed to meet the needs of various industries, offering a reliable and efficient way to dispense aerosol products. With its Cone/Dome lid type, this can ensures a secure closure, keeping the contents safe and intact.

Specifically engineered for dispensing aerosol products, the Tinplate Aerosol Can is equipped with a metal actuator that provides precise control over the spraying mechanism. This feature enhances user experience and ensures a consistent application of the contents, whether it's an Aerosol Spray Valve, Aerosol Spray Car Wax, or any other aerosol product.

One of the key advantages of the Tinplate Aerosol Can is its recyclability, making it an eco-friendly choice for environmentally conscious consumers and businesses. By choosing this can, you are contributing to the reduction of waste and promoting sustainability in packaging practices.

When it comes to performance, the Tinplate Aerosol Can excels in pressure resistance. With a burst pressure of \geq General 14bar and High Pressure 21bar, this can is built to withstand the rigors of storage and transportation, ensuring the safety of both the contents and the users.

Whether you are packaging Aerosol Spray Valves, Aerosol Spray Car Waxes, or other aerosol products, the Tinplate Aerosol Can provides a reliable and efficient solution that meets the highest standards of quality and functionality. Its durable construction, metal actuator, and recyclable nature make it a preferred choice for a wide range of applications, from personal care and household products to automotive and industrial chemicals.

Upgrade your packaging strategy with the Tinplate Aerosol Can and experience the benefits of a premium solution that combines performance, sustainability, and versatility. Trust in the Cone/Dome lid type, metal actuator, and pressure-resistant design to deliver your aerosol products safely and efficiently, while also contributing to a greener future through its recyclable properties.

Features:

Product Name: Tinplate Aerosol Can

Lid Type: Cone/ Dome

Material: Tinplate

Actuator: Metal

Customization: Available For Branding And Labeling

Usage: Spray Packaging

Technical Parameters:

Shape	Cylindrical
Customization	Available For Branding And Labeling
Product Type	Spray Can Dome
Burst Pressure	\geq General 14bar, High Pressure 21bar
Surface Treatment	Varnishing Or Lacquering
Recyclable	Yes
Material	Tinplate
Actuator	Metal
Usage	Spray Packaging
Lid Type	Cone/ Dome

Applications:

Product Application Occasions and Scenarios for the Tinplate Aerosol Can are versatile and cater to a wide range of industries and needs. With the brand name being customizable, this product can be tailored to suit specific requirements. The model numbers available are 45, 52, 57, 60, 65, and 70, providing a variety of options to choose from.

Manufactured in China, this Tinplate Aerosol Can is certified with ISO9001, ensuring high quality and reliability. The minimum order quantity can be customized based on the customer's needs, and the price is dependent on the quantity ordered.

The packaging details include options such as paper bag, carton, stretch film, and wooden pallet, offering flexibility in packaging choices. Delivery time for the product is between 7-14 days, making it a quick and efficient solution for various applications.

Payment terms for the Tinplate Aerosol Can are flexible, accommodating all types of payment preferences. The primary usage of this product is for spray packaging, making it suitable for products such as engine oil tin can, car aerosol spray paint, and aerosol spray paint. Being recyclable, the Tinplate Aerosol Can is an environmentally friendly choice for packaging needs. Customization options are available for branding and labeling, allowing businesses to promote their brand effectively.

The lid type options for this product include cone and dome, providing choices for different preferences. Classified as a spray can dome, this product is versatile and ideal for various applications that require efficient spray packaging solutions.

Customization:

Product Customization Services for Tinplate Aerosol Can:

Brand Name: Customizable

Model Number: 45 52 57 60 65 70

Place of Origin: China

Certification: ISO9001

Minimum Order Quantity: Can be customized

Price: Depending on the number

Packaging Details: Paper bag/carton/stretch film/wooden pallet

Delivery Time: 7-14 days

Payment Terms: All

Actuator: Metal

Surface Treatment: Varnishing Or Lacquering

Sealing Type: Crimp Or Screw

Material: Tinplate

Customization: Available For Branding And Labeling

Support and Services:

Our Product Technical Support and Services for the Tinplate Aerosol Can include:

- Expert assistance with product assembly and operation
- Troubleshooting guidance for common issues
- Maintenance tips to ensure optimal performance
- Product training and education for users
- Warranty support and replacement services as needed
